ORGANIZATION

LOCATION

SIZE

OREGON SCHOOL DISTRICTS

This list gives information for Oregon school districts as they were organized on June 30, 1988. In Part I, districts are arranged alphabetically statewide. In Part II, districts are arranged in numerical order by county.

Letter designations in Part I indicate district organization.

U----- a unified district which operates grades 1 through 12.

Ue---- a unified district which operates only grades 1 through 8. Secondary students attend a high school in another district on a district-paid tuition basis.

E----- an elementary district which operates grades 1 through 8 or 1 through 6.

Some districts have a unified (U or Ue) portion and an elementary portion . Students attend the same elementary school, but may attend different high schools depending upon which part of the district they live in.

UH---- A union high school district which operates grades 9 through 12 for students from component elementary districts.

Some union high school districts operate grades 7 through 12. Component elementary districts thus operate grades 1 through 6. Elementary and union high school districts organized this way are marked with an asterisk.

Elementary district or parts of districts which comprise a union high school district are shown in Part II.

Special designations are:

J----- a joint district with territory in two or more counties. Joint portions are listed in Part II beside joint district listings.

Susp-- a suspended district which does not operate schools, but sends its students to another district's school on a distict-paid tuition basis.

A----- a unified district organized administratively under ORS 330.505 at 330.780.

Average daily membership attending (ADMa) is shown in Part II for each district as of June 30, 1988. ADMa is computed by dividing total days membership by the number of days that schools in the district were in session. ADMa figures beside county names are for students attending ESD-operated programs.

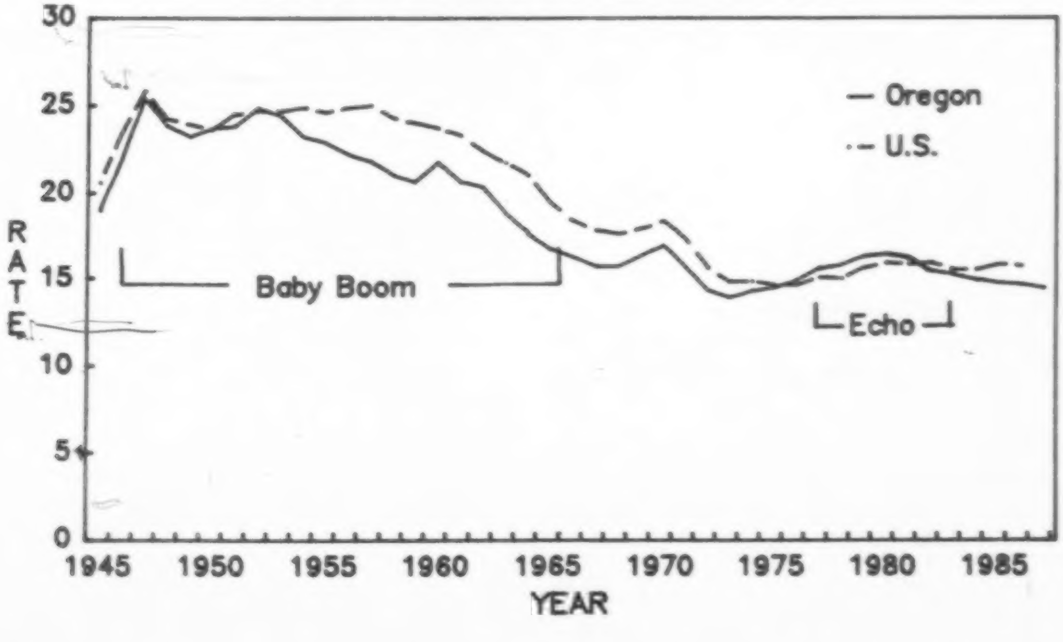
AVERAGE DAILY MEMBERSHIP

1982-83 to 1992-93



LIVE BIRTH RATES,
OREGON AND THE U.S., 1945-1987

Student Population Trends

The decline in student population which began in 1978-79 has reversed. Enrollment in the 1990's should exceed previous highs set in the 1970's. Three factors contribute to this growth - the requirement for kindergarten in every school district by 1989-90, the increase in live births since the mid-1970's, and a net inmigration in the general population. Total student population is expected to increase over the next five years at an average rate of 1.3% per year.

How the Projections Were Made

Projections for 1988-89 are based on an October 1 headcount. This figure is an accurate predictor of year-end enrollment and ADM. The population on October 1 and June 30 is arrayed by grade for each of the latest four years. Individual growth percentages from October 1 to June 30 are computed for each pair of figures. The four percentages for a particular grade are averaged and that average is multiplied by the current year's October 1 population for that grade to predict the June 30 population.

Projections for years following the current year are made using a cohort survival technique. Data comes from the latest two years' actual figures (Y-1, Y-2), and the current year's figures (Y) as projected above. To project third graders, for example, the sum of third graders in the current and previous year is divided by the sum of the second graders in the previous and second previous year:

$$\text{Factor} = \frac{(Y)_3 + (Y-1)_3}{(Y-1)_2 + (Y-2)_2} .$$

That survival factor is multiplied by the number of second-graders in each succeeding year to find the number of third-graders in the next year:

$\text{Factor} \times (Y)_2 = (Y+1)_3.$
$\text{Factor} \times (Y+1)_2 = (Y+2)_3.$
etc.

Predictions for first-graders are made using the same method as for the other grades, but substituting births six years prior to entry for the previous year's population.

Kindergarten projections are .95 times births five years prior to entry. That factor is an arbitrary one, and will be made more accurate as the effect of required public kindergartens is made clear in the next few years.

199-202

SUMMARY OF 1988-89 SCHOOL DISTRICT AND ESD BUDGET RESOURCES AND TAX EXTENSIONS

Col. 1 - Estimated amount expected from taxes owed in prior years but not collected.

Col. 2 - Estimated receipts from local and intermediate sources such as payment for services to other districts, interest on savings, tuition, income from rentals, etc.

Col. 3 - Estimated receipts from the County School fund.

Col. 4 - Estimated receipts from Federal Forest Fees.

Col. 5 - Estimated apportionment of state money from the Basic School Support Fund.

Col. 6 - Estimated receipts of state money from the Common School Fund.

Col. 7 - Estimated receipts of state money for special education, special schools, drivers education, etc.

Col. 8 - Estimated receipts of federal money from grants for vocational education, ECIA, school lunch, education of the handicapped, etc.

Col. 9 - Estimated amount ~~of cash~~ on hand at the beginning of the fiscal year.

Col. 10 - The total of all estimated resources itemized in columns 1 through 9.

Col. 11 - The total estimated amount of money required by the district to finance expenditures for all Funds during the fiscal year.

Col. 12 - The total of all estimated resources (identical to Column 10).

Col. 13 - Revenue necessary for the district to balance its budget -- the difference between Column 11 and Column 12.

Col. 14 - Estimated amount of taxes levied that will not be collected during the fiscal year.

Col. 15 - The levy certified to the county assessor -- Column 13 plus Column 14.

Col. 16 - Offsets to the district's certified levy from timber taxes, severance taxes, etc.

Col. 17 - The levy extended on the tax roll. This is the certified levy minus offsets, with a small difference arising in the tax rate calculation.

Col. 18 - The assessed value of property in the district.

Col. 19 - The tax rate needed to raise the extended levy (Column 17).

Col. 20 - The levy certified to the county assessor.

Col. 21 - The amount of the district's certified levy within the tax base.

Col. 22 - The amount of the district's certified levy outside the tax base.

Col. 23 - The amount of the district's certified levy for payment of bonded indebtedness.

Col. 24 - The portion of the certified levy made for operation purposes.

Col. 25 - The portion of the certified levy made for construction levies and bonded debt.

Note : Tabular details may not add to totals due to rounding.

* - Inside safety net for first year.
** - Inside safety net for second year.
